

Yasir Hassan

hello@yaasir.dev | +252 63 6919012 | yaasir.dev | GitHub | LinkedIn | Hargeisa, Somaliland

Summary

I build AI-driven tools and full-stack architectures. Self-taught. Driven by high-performance logic. Guided by simplicity (KISS). Currently writing Go, TypeScript, and Python on Arch Linux & Neovim. Winner of the Telesom Xalkadoon Hackathon 2025.

Skills

- **Languages:** Go, TypeScript, Python

Experience

Aduunyo Solutions

Software Engineer

Hargeisa, Somaliland (Hybrid)

Jan 2026 -- Present

- **Data Migration Engine:** Designed and executed a custom Python migration script to extract, validate, and securely load thousands of transaction and client records from Upya CRM into a newly developed Aduunyo CRM system with 100% data integrity.
- **Technical Consulting:** Advised stakeholders on system architecture, audited codebase deliverables for quality assurance, and coordinated cross-functional development efforts.

Ardaykaab Academy

Mentor

Hargeisa, Somaliland (Hybrid)

Feb 2026 -- Present

- **Instruction & Leadership:** Mentored student cohorts in full-stack architecture, REST API design, Git workflows, and database management, significantly improving their graduation and employment readiness.

Freelance

UI/UX Designer & Web Developer

Hargeisa, Somaliland (Hybrid)

2024 -- 2025

- **Design & Development:** Designed high-converting user interfaces (UI) and branding materials using Figma, Adobe Illustrator, and Photoshop, accelerating client acquisition and digital presence for multiple businesses.

Projects

Archon CLI

Open Source Creator

Go, AI, CLI

2026

- Built a Socratic AI terminal assistant using Go that actively guides developers by asking architectural questions instead of outputting generic code snippets, improving critical thinking and workflow efficiency.

Mongoose Studio

Open Source Creator

React, Node.js

2026

- Developed a zero-config, React-based local desktop GUI for Mongoose schemas, enabling instant visual data exploration and structure checks for backend developers.

Awards & Hackathons

1st Place Winner — Telesom Xalkadoon Hackathon

Telesom Academy & Telesom Group

Hargeisa, Somaliland

Dec 2025

- Awarded 1st place and a \$5,000 prize for designing OGAAL, a community-driven water intelligence and drought early-warning system powered by USSD, SMS, and a Python analytics engine.
